A dedicated and passionate software developer with a strong background in backend and full-stack development. Proficient in PHP, MySQL, and modern web frameworks like Laravel, with hands-on experience in object-oriented programming and problem-solving. A freelancer since January 2023, delivering scalable solutions to diverse clients. A collaborative team player eager to contribute to platforms like TopAfricans, championing inclusivity and innovation.

TECHNICAL SKILLS

- Testing – Cypress, Jest, Jasmine
- Frontend - HTML, CSS, JavaScript, Angular, TypeScript, Reactjs, Blade
- Backend - Laravel, CodeIgnighter .NET, Nodejs
- Databases - SQLServer(MsSQL), PostgreSQL, MongoDB, MySQL
- Mobile - Flutter
- Other Tools: Docker, Jira, Git, REST APIs

EXPERIENCE

Freelance Software Developer

January 2023 – Present

- Designed and deployed scalable, custom web solutions for clients.
- Enhanced and debugged legacy PHP applications to improve functionality and performance.
- Implemented MySQL database optimization strategies, resulting in faster query execution.
- Created API integrations using PHP and Node.js, enabling seamless data exchange.

Full Stack Developer (Intern) – The Jitu, Teach 2 Give

March 2024 – August 2024

- Developed a full-stack event management system with comprehensive component testing.
- Built multi-channel payment integrations to streamline transactions.
- Created Jest unit tests and Cypress end-to-end testing for critical application components.

Skills & Tools: Angular, Node.js with TypeScript, MSSQL, Jest, Jasmine, Cypress

Backend Engineer – CodeHacks

December 2022 – February 2024

- Developed middleware services for data cleaning and integration in healthcare systems.
- Worked with users during acceptance testing and iterated based on feedback.
- Delivered backend solutions tailored for diverse domains like healthcare and finance.

Skills & Tools: Node.js, Jira, K6

EDUCATION

Holberton School – ALX Software Engineering
October 2023 – November 2024

Chuka University, Ndagani – Bachelor of Science in Applied Computer Science
2021 – 2025

CERTIFICATIONS

- CCNA 1, CCNA 2 (completed), CCNA 3 (in progress)
- ALX Software Engineering, Backend Development Certification

PROJECTS

DSIMI HR System (Laravel)

- Developed a Human Resource Management System using Laravel.
- Features include employee records management, attendance tracking, and payroll processing.
- Tools & Technologies: Laravel, MySQL, Bootstrap, jQuery.
- **Access**: Demo available upon request.
- **Link**: DSIMI GitHub Repository
